## First component for X-34 oxygen tank completed

The first major component of an experimental composite liquid oxygen tank for NASA's X-34 rocket plane has completed the curing process in an oversized oven at Marshall. The composite tank is one of 10 supplemental advanced technology experiments planned for the later stages of the X-34 program. It will be the largest composite liquid oxygen tank made and the first to fly on a launch vehicle.

Civil service CPR classes set Feb. 23, March 30, April 27. Register via AdminSTAR

Desktop, wall calendars available in Substore, Bldg. 4471, and Annex, Bldg. 4200

## Safety shoe van to assist employees Wednesday

The mobile safety shoe van will be at the southwest end of Bldg. 4471 from 8 a.m.-2 p.m. Wednesday to assist civil service and contractor personnel with safety shoe needs.

## Amex Leisure Travel Office moves to Kennedy

All leisure travel is being routed to Kennedy Space Center in Florida. This change is a result of an agreement between NASA and American Express under the NASA-wide travel contract. The number to call for leisure travel is 1-800-348-4202. Rosemary Tracy, the leisure travel counselor, will remain at Marshall as a government travel counselor.

Volunteers, mentors needed for Marshall-sponsored Explorer Scout Post. Call 544-7076
